Installed PA and routing

Inputs from the upstairs DJ setup, upstairs AUX/TV, downstairs AUX and live/downstairs DJ setup can feed any of four zones, with independent volume control.

Basement

- Martin Audio CDD8 in the front area.
- Martin Audio CDD12 with CDD8 fills in the rear live area.
- EV 12-inch subwoofers.
- FFA amplification and DSP.

Upstairs

- Martin Audio CDD8 in two zones: front and back.
- Crown amplification and DSP.
- DJ, TV and AUX input via mini jack.

System control: Cloud ZONE Z4.

DJ / club equipment

- 4 x Pioneer CDJ-2000NXS2.
- 2 x Technics SL-1210MK7.
- Pioneer DJM 900 Nexus or Allen & Heath Xone 92 mixer.
- 4 x Martin Audio Blackline XP12 powered two-way loudspeakers (1300 W); 2 x X115 subwoofers.

DJ provision varies by booking. Confirm the exact player and mixer models, availability and any hire fees with the venue.

Compiled by Real Sounds from The Greyhound venue deck. Equipment details retained from the supplied specification; confirm the final setup for your show with the venue.
